

## Declaration of Performance

according to the Construction Products Regulation (EU) No. 305/2011  
for the vehicle restraint system  
„Vario-Guard MÜF“ CE 0531

The manufacturer

Heintzmann Traffic Systems GmbH  
Bahnhofstraße 35  
66564 Ottweiler  
Deutschland

hereby confirms that the system

„**Vario-Guard MÜF**“

meets the requirements of the abovementioned regulation.

Certification authority:

TÜV Süd Österreich  
Arsenal Objekt 207  
A – 1030 Wien

EU notification number:

0531

Declared performance:

Containment level: H2  
Impact severity level: B  
Working width: W= 1,6 m (W5)  
Dynamic deflection: D = 1,2 m

Durability:

The expected durability of the vehicle restraint system is 25 years.  
However, the real durability depends on circumstances that fall outside the sphere of influence of the manufacturer.

Application area:

The vehicle restraint system **Vario-Guard MÜF** is a double sided road safety system for installation at the roadside or in the median.

Installation conditions:

Installation has to be realized according to the installation manual.  
Only completely mounted systems shall be put into operation.

CE Certificate of Performance:

0531-CPR-1317-2573

EU standards applied:

EN 1317-1:2010, EN 1317-2:2010 und  
EN 1317-5:2007+A2:2012/AC :2012

Ottweiler, 29.10.2019

  
Heintzmann Traffic Systems GmbH  
Bahnhofstraße 35  
66564 Ottweiler
